Co-curricular Event Evaluation

Introduction

The mission of the UA Rich Mountain Co-curricular program is to plan and organize co-curricular activities to support the curriculum, enhance student learning, and encourage personal growth. The Co-curricular Outcomes were chosen to advance this mission.

The co-curricular program assessment activities were formalized beginning August 2019 with development of outcomes, procedures, and documentation requirements for all extra and co-curricular activities. Procedures and documentation were updated in January 2023.

The Co-curricular Outcomes, which continue to include both Student Development principles and General Education Learning Outcomes (GELO), are listed below. Co-curricular assessment survey results, which align participation in activities with one or more of the Co-curricular Outcomes, are gathered for each event.

UARM CO-CURRICULAR OUTCOMES	
Student Development Principles	**GELOs**
