For the next budget cycle, we are asking to renovate a small part of the union and turn it into a bigger area for a Coffee/brista bar. Coffee is becoming a huge fad in this decade and why not join in, especially on a college campus where students can conveniently stop by before or after class and purchase a coffee beverage. In the short time that we have started this in July of 2023. If has shown a significant difference in our coffee sales in previous years. So, I have taken data from the period of July 1, 2022, to March 7, 2023, and have compared it to July 1, 2023, to March 7th, 2024:

July 1, 2022 – March 7th, 2023:
Gross Sales: $577.00

Jul1, 2023 – March 7th, 2024:
Gross Sales $4348.30

That is a 654% increase in just coffee sales over this period.
