MTH243-01
Survey of Calculus
Fall 2021

Instructor: Damian Maxwell- BSc, The University of the West Indies, Mona Jamaica. MSC, Indiana State University, USA.
P(479) 394-7622 ext. 1335
Email: dmaxwell@uarichmountain.edu
Office Hours: MW 9:30 – 11:00, 2:30 – 4:30
TR 11:00 – 2:00
F 10:00 – 12:00 by appointment

Class Schedule: MW 11:00- 12:15 Spencer 245

Prerequisite/Description:
The student should have completed College Algebra (MATH 203), or the equivalent, with a "C" or better. This course is intended for those students who need an introduction to the fundamental concepts of calculus. It is designed for students majoring in business, agriculture, and the social sciences. This class cannot be taken for credit after successful completion of MTH245.

Resources:
Text: *Brief Applied Calculus*, James Stewart, Daniel Clegg, Brooks/Cole Cengage Learning, Copyright 2012, ISBN-13: 978-0-534-42382-7, ISBN-10: 0-534-42382-5

Required Materials:
TI-83 or 84 Calculator, 3-ring notebook, college rule 3 hole paper, graph paper or graph stamp, cardboard folder, mechanical pencils with extra erasers, small pack colored pencils, straight edge.

Course Description: Polynomial calculus course that includes exponential growth and decay with focus on applications. Not intended to satisfy the major requirements for BS/BA in mathematics. The student will demonstrate a basic understanding of application for the following calculus related topics: limits, continuity, differentiation, antiderivatives, definite and indefinite integration, exponential and logarithmic functions, rate of change, slope of a function, *Applications include:* graphing functions using derivatives, optimization, and applied problems in the management of science and economics.

Program Outcomes: This course is intended for those students who need an introduction to the fundamental concepts of calculus. It is designed for students majoring in business, agriculture, and the social sciences. The knowledge and critical thinking skills acquired will enable students to analyze problems and to arrive at intelligent conclusions, balancing conceptual understanding with technical skills.

- Use mathematical models to describe data applications to solve problems which they encounter in the workplace.
- Possess technological skills to identify, locate, and process information.

Rationale: An objective of post-secondary education is to provide a core of knowledge that is shared with most educated people. By studying and developing a deeper understanding of mathematical concepts, students can better analyze, problem solve, and prepare critical thinking strategies for real world scenarios.

Course Objectives: Upon successful completion of MTH 243 Survey of Calculus, the student should be able to:

1. Perform and solve basic differentiation and integration problems using appropriate vocabulary and technology.
2. Use critical thinking to formulate decisions and problem solving based on reasoning and analysis.
3. Appropriately use technology to supplement and enhance conceptual understanding, visualization, and inquiry.
4. Synthesize information from a variety of sources to solve problems and interpret results.
5. Demonstrate understanding of functions including linear, polynomial, logarithmic, and exponential.
6. Graph equations using derivatives by hand and on the graphing calculator.
7. Demonstrate an understanding of the applications of differentiation and integration.

Students will demonstrate mastery of the above objectives by grades of C or above on quizzes, tests, and the final exam.

Course Conduct: The class will be taught using a combination of lecture, group interaction, question and answer approach, and independent study. New topics will be demonstrated using the board, overhead projector, and TI 84+ Smartview computer program for support of graphing calculator use. Students are strongly encouraged to discuss concepts and examples as opportunities are presented during instructor presentation. It is the student's responsibility to inform the instructor when a concept is confusing or otherwise unclear.

UA Rich Mountain Credit Hour Calculator: For every course credit hour, in a summer session, you should expect to spend at least three clock hours per day of concentrated attention on course-related work, including but not limited to time attending class, as well as out-of-class time spent completing homework, seeking help from instructor or tutors, preparing for upcoming quizzes/tests/exam, reviewing material, problem solving, and organizing your notebook. For a three hour course, a typical student should expect to spend at least nine hours per day dedicated to this course. This includes the time spent in class. Please see credit hour calculator attached to end of syllabus.

Topical Course Outline and Proposed Schedule

Class Meeting	Date	Lesson	Topic
Week1-3	08/16-08/31	2.1	The Derivative
		2.2	Limits
		2.3	Rates of Change and Derivatives
		2.4	The Derivative as a Function
Week 4-6	09/07-09/21	3.1	Shortcuts to Finding Derivatives
		3.2	Introduction to Marginal Analysis
		3.3	The Product and Quotient Rules
		3.4	The Chain Rule
		3.5	Implicit Differentiation and Logarithms
		3.6	Exponential Growth and Decay
Week 7-9	09/28-10/12	4.1	Related Rates
		4.2	Maximum and Minimum Values
		4.3	Derivatives and the Shapes of Curves
		4.4	Asymptotes
		4.5	Curve Sketching
		4.6	Optimization
		4.7	Optimization in Business and Economics
Week10-12	10/19-11/02	5.1	Cost, Area, and the Definite Integral
		5.2	The Fundamental Theorem of Calculus
		5.3	Net Change Theorem and Average Value
		5.4	The Substitution Rule
Week 13-14	11/09-11/16	6.1	Areas Between Curves
		6.2	Applications to Economics
		6.3	Applications to Biology
Week 15	11/23-11/29		**Review for Final**
Week 16			**Final Exam**

Important Dates:

August 16	M	Classes begin
September 6	M	Labor Day holiday (no classes, campus closed)
October 4-8	M-F	Priority Registration for Spring
October 11	M	Mid-semester/first 8-week classes final grades due
November 24-26	W-F	Thanksgiving holidays begin (no classes, offices open W)
December 3	F	Classes end/Last day to drop a class with a W
December 6-9 December 10	M-R F	Final exams (16th week) Grades due

Course Requirements / Evaluation (Grading):

Course Requirements / Evaluation (Grading):

Tests are 30% of your final grade. Three tests are scheduled.
Class Attendance & Participation 10%
Homework Assignments 25%
Research & Presentations 15%
Final Exam 20%

The final exam is comprehensive and will include problems from the chapters we have covered in class.

90 – 100 = A **80 – 89 = B** **70 – 79 = C** **60 – 69 = D** **0 – 59 = F**

Criteria for Credit: Homework must be neat and complete all steps or an explanation of how to arrive at the correct answer must be give. ***Answers alone are not acceptable***. Write the lesson topic at the top of the first page. Leave at least one blank line between problems. All graphs are to be accurately sketched on graph paper with all parts properly labeled and all work for the problem shown on the same page as the graph. For immediate feedback, you may check your answers for most assigned problems in the back of the book. *You will not receive credit for any problems not meeting the criteria for credit described above.*

Covid-19 Protocols

Face Mask Policy: As per the direction of the University of Arkansas Board of Trustees, all students are required to wear a proper face covering that completely covers the nose and mouth while on campus and in class. Masks with holes or masks that do not completely cover nose and mouth are not acceptable. Any student that does not have a proper mask will leave class and be referred to the Vice Chancellor for Student Affairs for possible disciplinary action.

Food and Drink: Food and drinks, including water are not allowed in the classroom at any time.

Class Procedures/Student Requirements:

Computer and On-Campus Resources: Computer labs with printers are available in several places on campus including the Johnson Learning Commons. UA Rich Mountain offers students assistance with quality tutors available in the Student Support Services (SSS) and Learning Enrichment and Counseling Center (LEAC) in the Johnson Learning Commons. You may access www.tutor.com/uarichmountain nights and weekends when SSS is not available.

Attendance / Make-up Policy: No make-up exams will be given. If you miss an exam, the missing grade will be replaced by the final exam score at the end of the course. Deliberately missing an exam is not advised due to the comprehensive nature of the final exam and the possibility of missing a future exam. Homework portfolios are due just before taking the exam. Late portfolios will be severely penalized. The student is responsible for instruction missed during class by studying the material in the book, seeking help from the teacher and/or student support services, and by getting class notes from the teacher or another student.

Cell Phones: The use of cell phones in the classroom is prohibited. Turn cell phone off or set on vibrate and store it out of sight during class time. Cell phones will be taken up on test days.

Academic Dishonesty: Any suspicion of academic dishonesty will result in no credit for the paper in question.

Disability Policy: It is the policy of UA Rich Mountain to accommodate students with disabilities, pursuant to state and federal law. Any student with a disability who needs accommodations should contact the Vice Chancellor for Student Affairs Office, 394-7622, ext. 1460.

Arkansas Clean Air Act: In compliance with the Arkansas Clean Air Act, UA Rich Mountain is a smoke and tobacco free facility. Students and guests are to refrain from the use of all tobacco products while on campus.

Student Misconduct: Students committing misconduct are subject to disciplinary sanction(s) and/or restrictions. Misconduct or prohibited behavior includes, but is not limited to endangerment, harassment, disruption, sexual misconduct, illegal drugs and/or alcohol, fire or safety issues, gambling, property violations, computer violations or other violations as listed in the UA Rich Mountain catalog.

UA Rich Mountain Mission: UA Rich Mountain provides transformative education to all learners.
