Course Conduct:
The majority of this class will be lecture-oriented. However, there will be other projects and activities throughout the semester.

You are encouraged to form study groups to help in this class. You may also seek assistance from Student Support for help understanding the material or writing the paper. If you are having extreme difficulty, please make an appointment with me to discuss it.

Credit Hour Calculator: For every course credit hour, you should expect to spend at least three clock hours per week of concentrated attention on course-related work, including but not limited to time attending class, as well as out-of-class time spent reading, reviewing, organizing notes, preparing for upcoming quizzes/exams, research, writing papers, working with your team, and other activities that enhance learning. For a three-hour course, a typical student should expect to spend at least nine hours per week dedicated to the course. This includes the time spent in class.

Course Requirements/Evaluation:
Grades will be based on four tests, the final exam, a short research paper, and other projects. Grades are based on the standard grading scale: 90-100 (A), 80 – 89 (B), 70 – 79 (C), 60 – 69 (D), below 59 (F).

Tests: **The majority of your grade will come from your test scores**. Tests will be multiple-choice, fill-in-the-blanks, short answer, and essay. The final exam may be cumulative, including questions from previous tests.

Projects and/or papers:
There will be various papers and projects assigned throughout the semester. These projects will include brief papers and essays (which will require documentation). Projects may also include group presentations and debates. The topics of these projects will be announced later.

Research paper:
The research paper will be approximately 4 – 6 pages in length, TYPED, and double-spaced. The topic will be announced later. No folder is needed; a simple staple will do. As for style, avoid first- person, and do not change tense throughout the paper. Sources must be properly documented, i.e., use footnotes or endnotes and include a bibliography. For documentation of sources, you may use the standard guide for historical writing--The University of Chicago Press's Manual of Style or MLA style if you are more familiar with that. I am available to assist you in this project and will be quite pleased to comment on your early drafts.
