UA Rich Mountain
Assessing Student Learning
Course Outcomes Report
Reggie Fryar.
Fall 2019

Purpose
The Course Outcomes Report supplies information each semester regarding student learning on the course level. This report must be submitted to your division chair by the last day of the semester. Data from this report will be integrated into the annual Program Outcomes Report on Student Learning.

Background
Course Name: American National Government Course # ***PSI 103***

Course Outcome(s) being assessed this semester
Think of the evidence of student learning activity or project. Choose ONE outcome for this course.

Related Program Outcome: Students will apply technological and research skills to identify, locate, and process information.

Related GELO category: Research and Technology

Evidence of Student Learning
Describe the classroom activity/tools related to **course** objective (What did they do for the class which was tied to this objective? Was it a project? Discussion? Quiz?)

Describe Activity: In connection with our studying the Bill of Rights, the students were assigned Supreme Court cases connected to our protections guaranteed under the Constitution. Each student was to research the cases as they pertained to the first ten amendments. They were to examine the constitutionality of the case, the appropriate amendment (s), the different types of opinions and the final decision made in the case. They were then to connect them with today's society and discuss the impact upon their lives.

Reflection
A. What was the result of this activity? (How do you know that students satisfied the course objective being measured?)

The majority of the students completed the assignment to my standards. Others went beyond expectations and a few met the standards minimally. I was able to check off the requirements for each student and the extent to which they met them.

B. Enter course data

Number of students in your course(s) who met course objectives: 12 satisfactorily

Enter the number of students total in your course section(s): 13

Enter the percent (%) of students achieving this course objective. (Data will be used on Program Outcomes Report under Evidence of Student Learning.) 92%

C. Response to data: Will you change how you teach as a result of this assessment? I will attempt to be more aware of those that are struggling and help them to be more successful.

Choose only one of the narration options below. If curricular changes are needed, briefly explain any changes planned for course improvement. If no changes are needed, indicate the rationale in the space provided below.

☐Changes(s) needed. *Type here*

X☐No change(s) needed I do not believe that any changes need to be made because, as a whole, the class is able to be successful.

****Attach anonymous student samples of each activity along with the grading rubric / scale.**
