Assessing Student Learning
Course Outcomes Report
Terry Francis
Fall 2019

Purpose
The Course Outcomes Report supplies information each semester regarding student learning on the course level. This report must be submitted to your division chair by the last day of the semester. Data from this report will be integrated into the annual Program Outcomes Report on Student Learning.

Background
Course Name: General Psychology Course # PSY203 IN18

Course Outcome(s) being assessed this semester
Think of the evidence of student learning activity or project. Choose ONE outcome for this course.

Related Program Outcome: Students will apply technological and research skills to identify, locate, and process information.

Related GELO category: Research and Technology

Evidence of Student Learning
Describe the classroom activity/tools related to **course** objective (What did they do for the class which was tied to this objective? Was it a project? Discussion? Quiz?)

Describe Activity: For this capstone project, students developed a media portfolio containing 30 articles that illustrate psychological concepts. Students provided a graphic that illustrated the article concept, wrote a summary of each article, used MLA format to provide the bibliographic information for each article, and supplied URL addresses for the articles. The students submitted their projects via email.

Reflection
A. What was the result of this activity? (How do you know that students satisfied the course objective being measured?)

The project was divided into two due dates, with 15 articles due on each date. 93% of the students successfully completed the first set of articles; 86.66 % successfully completed the 2nd set of articles. The project had an overall success rate of 89.99%.

B. Enter course data
Number of students in your course(s) who met course objectives: 30

Enter the number of students total in your course section(s): 35

Enter the percent (%) of students achieving this course objective. (Data will be used on Program Outcomes Report under Evidence of Student Learning.) 85.71%

C. Response to data: Will you change how you teach as a result of this assessment?

Choose only one of the narration options below. If curricular changes are needed, briefly explain any changes planned for course improvement. If no changes are needed, indicate the rationale in the space provided below.
