**UA Rich Mountain**
**Assessing Student Learning**
**Course Outcomes Report**
**Robby Burt**
**Spring 2021**

**Purpose**
The Course Outcomes Report supplies information each semester regarding student learning on the course level. This report must be submitted to your division chair by the last day of the semester. Data from this report will be integrated into the annual Program Outcomes Report on Student Learning.

**Background**
Course Name: Theatre Arts Course # DRA 203

**Course Outcome(s) being assessed this semester**
**Think of the evidence of student learning activity or project. Choose ONE outcome for this course.**

1. The successful student will be able to explain the job of the actor, playwright, director, designers, and production staff.

Related Program Outcome: Program Outcome: Students will apply technological and research skills to identify, locate, and process information.

Related GELO category: Critical Thinking

**Evidence of Student Learning**
Describe the classroom activity/tools related to **course** objective (What did they do for the class which was tied to this objective? Was it a project? Discussion? Quiz?)

Describe Activity: Students we given a pretest of the final. 35 out of 36 members of the class took the pretest with the average of 24 points/75 points or a 32% average. At the end of the semester, during finals week, 30 students took the final and had the average of 55.7 points/75 points or a 74.3% average. This brings the average grade up by more than 40 percent.

**Reflection**
**A.** What was the result of this activity? (How do you know that students satisfied the course objective being measured?)

Students took the pretest (test 4) at the begging of the semester and test 4 at the end of the semester; the difference between the pretest and final test was more than 40%.

**B.** Enter course data

Number of students in your course(s) who met course objectives: Out of 3 students still enrolled, all students had the grade of "C" or better, only one student received the grade of "F".

Enter the number of students total in your course section(s): The semester began with 36 students, the semester ended with 31 students.

Enter the percent (%) of students achieving this course objective. (Data will be used on Program Outcomes Report under Evidence of Student Learning.) 30 out of the original 36 students passed the course.

**C.** Response to data: Will you change how you teach as a result of this assessment?

Choose only one of the narration options below. If curricular changes are needed, briefly explain any changes planned for course improvement. If no changes are needed, indicate the rationale in the space provided below.

☒Changes(s) needed. Need a way to improve the retention of the other students that dropped out or completed with a failing grade. More personal contact needed with students that are in the lower percentile of the class.

☐No change(s) needed

****Attach anonymous student samples of each activity along with the grading rubric / scale.**
