## Fall 2020 AMaxwell MTH203-04 Course Comments

Any additional comments about the course or instruction?

N/A

As a homeschooled high school senior, College Algebra was my first time in a classroom setting since second grade. I have greatly enjoyed the course. Mr. Maxwell is a very effective and passionate teacher

I already took this class a couple of years ago. In high school, I took AP Calculus and did great in the class. I like the note taking guide, but I just don't need it really.
