Any additional comments about the course or instruction?

No

Mrs. Singleton is an awesome teacher! She's very nice and helps a lot!

I hate this class, and it's really hard. Her not being here a lot doesn't help.

Nice, kind

As long as the teacher is in the classroom, the work flow is much better.

She is definetly the best teacher for this course.

I really enjoyed this course overall, not including the difficult parts. These are so very stressful projects and challenges, but the teacher helped us get throw it and I really respect here for that
