## 4. Evidence of Student Learning

Describe the classroom activity/tools related to **course** objective (What did they do for the class which was tied to this objective? Was it a project? Discussion? Quiz?)

Describe Activity: Students were required to complete weekly research questions provided by the instructor. The research questions were based on the material being covered each week for class.

**5. Reflection**

**A.** What was the result of this activity? (How do you know that students satisfied the course objective being measured?)

The student's efforts were assessed using a specific grading rubric for the research questions. Students needed to complete the research questions each week and grasp at least some understanding of the subject matter.

**6. Enter course data**

Number of students in your course(s) who met course objectives: 3

Enter the number of students total in your course section(s): 3

Enter the percent (%) of students achieving this course objective. (Data will be used on Program Outcomes Report under Evidence of Student Learning.) 100%

**7. Response to data:** Will you change how you teach as a result of this assessment?

Choose only one of the narration options below. If curricular changes are needed, briefly explain any changes planned for course improvement. If no changes are needed, indicate the rationale in the space provided below.
