# Course Syllabus for Plane Trigonometry
# University of Arkansas Rich Mountain
# Spring 2021

**Instructor**: Damian Maxwell- BSc, The University of the West Indies, Mona Jamaica. MSC, Indiana State University, USA.
Cell: (479) 234-5956 Office: (479) 394-7622 ext. 1335
Email: dmaxwell@uarichmountain.edu
Office Hours: MW 9:20 – 10:50, 2:30 – 4:30
TR 9:20 – 10:50, 12:20 – 1:50
F 10:00 – 12:00 by appointment

**Time/Location**: Plane Trigonometry, MTH 213, 8:00 – 9:15, Room S245

**Prerequisites**: A grade of "C" or better in MTH203 College Algebra

**Text**: *Trigonometry*, Mark Dugopolski, Addison Wesley, Pearson Education, Copyright 2003, ISBN # 0-201-70338-6.

**Comments on Textbook:** This textbook is rich in examples that will effectively help you on your homework. Problems are outlined in a step-by-step format which will help you understand major concepts. Key ideas and concepts are highlighted to allow you to focus on the major points of each lesson. Emphasis is placed on using graphical, numerical, and analytic points of view while solving real life applications of concepts.

**Course Description**: This course is a study of trigonometric functions and their graphs, identities, solving conditional trigonometric equations, applications, complex numbers, polar coordinates, and parametric equations. Heavy emphasis is placed on graphical, numerical, and analytic methods of solving applications.

**Program Outcomes:** The knowledge and critical thinking skills acquired in the general education component enable students to analyze problems, to arrive at intelligent conclusions, and to make reasoned choices in their professional and personal lives.

- Use computational mathematics, algebraic operations, and their practical applications to solve problems which they encounter at home and the workplace.
- Possess basic technological skills to identify, locate, and process information.

**Rationale:** An objective of post-secondary education is to provide a core of knowledge that is shared with most educated people. By studying and developing a deeper understanding of mathematical computations, students can better analyze, problem solve, and prepare critical thinking strategies for real world scenarios. Technological skills with the graphing calculator are necessary for future math courses.

**Nature of the Course**: The class will be taught using a combination of lecture, group interaction, question and answer approach, and independent study. New topics will be demonstrated using a typed note-taking guide, document camera or Smartboard, and TI 84+ graphing calculator. Lectures will be recorded and available online for student review. The notetaking guide and practice exams are available on the portal. Students are strongly encouraged to discuss concepts and examples as opportunities are presented during instructor presentation or during Zoom sessions with the instructor. It is the student's responsibility to inform the instructor when a concept is confusing or otherwise unclear.

**Course Objectives and Expected Student Learning Outcomes:**

Upon successful completion of MTH 213 College Trigonometry, the student should be able to:

1. Perform and solve basic unit circle and right triangle problems using appropriate vocabulary and technology.

2. Demonstrate an understanding of the applications of trigonometry.

3. Appropriately use technology to supplement and enhance conceptual understanding, visualization, and inquiry.

4. Synthesize information from a variety of sources to solve problems and interpret results.

5. Demonstrate understanding of the graphs of trigonometric functions using graphing calculators and graphing by hand.

6. Manipulate and solve trigonometric equations using identities.

7. Solve conditional trigonometric equations.

8. Solve polar equations and graph equations using polar coordinates.

**COVID-19 Protocols:** For your protection, and the protection of others, please adhere to the following COVID-19 protocols until further notice.

**Face Mask Policy:** As per the Executive Order from the governor of Arkansas, all students are required to wear a proper face covering that completely covers the nose and mouth while on campus and in class. Masks with holes or masks that do not completely cover nose and mouth are not acceptable. Any student that does not have a proper mask will leave class and be referred to the Vice Chancellor for Student Affairs for possible disciplinary action.

**Food and Drink:** Food and drinks, including water are not allowed in the classroom at any time. This eliminates the need to remove masks and potentially expose others.

**Attendance:** Daily attendance is mandatory, either in-class or through Zoom (if in-class instructions is not possible). If a student is quarantined, the student will automatically shift to an all-Zoom attendance format for the 14-day period. Students are to notify their instructors of any quarantine orders, and a doctor's note is required. In the event the instructor is quarantined, the entire class will shift to an all-Zoom/online format for the 14-day period.

Students will be notified accordingly. Any potential absence is to be shared with the instructor.

**Technology Concerns:** Students with access concerns are expected to communicate with their instructors. Additionally, students can access the wi-fi from the South parking lot near the Ouachita Center. Students with access issues are encouraged to access course Zoom sessions from the parking lot, if needed. Students would be expected to drive to campus under normal classroom conditions. While it is not ideal, it does ensure reliable access and regular course participation. Students may use personal cell phones/devices to attend Zoom sessions. However, students have the option to check out campus computers from the library (Johnson Learning Commons).

**Social Distancing:** Students are to follow the social distancing guidelines as outlined by the Arkansas Department of Health (ADE) and the Centers for Disease Control (CDC). Additionally, UARM staff have clearly marked hallways, arranged classroom furniture, and removed keyboards from workstations to adhere to such guidelines. Students are asked not to assemble in the hallway before class. Please come to class when your class is schedule to start. When leaving the classroom, students will be asked to exit in an orderly manner to allow 6 feet between each person.

**Seating arrangements:** Students are not to sit at workstations where keyboards have been removed. Furthermore, due to contact-tracing regulations required by the ADE and CDC, students are to sit in the **same** seat/location **each** time they come to class.

**Cleaning procedures:** Students are expected to assist in keeping the classroom clean. Students are to clean their workstations each day upon entry and before leaving. Disinfecting wipes will be provided. Students are expected to wear gloves when using computers and keyboards, as these objects are more difficult to clean without damaging them. Gloves will be provided. To prevent cross-contamination, students are to remove and dispose of gloves upon leaving the classroom.

**UA Rich Mountain Credit Hour Calculator:** Success in this class demands good attendance, good listening and note-taking skills, practicing by doing assigned homework problems daily, sufficient practice in and out of class to become very proficient with your graphing calculator, and concentrated study before tests and final exam. For every course credit hour, you should expect to spend at least three clock hours per week of concentrated attention on course-related work, including but not limited to time attending class, as well as out-of-class time spent completing homework, seeking help from instructor or tutors, preparing for upcoming quizzes/tests/exam, reviewing material, problem solving, and organizing your notebook. For a three-hour course, a typical student should expect to spend at least nine hours per week dedicated to this course. This includes the time spent in class. Please see credit hour calculator attached to end of syllabus.

**Course Requirements / Evaluation (Grading):**

**Tests are 30% of your final grade. Four tests are scheduled.**
**Class Attendance & Participation 10%**
**Homework Assignments & Quizzes 25%**
**Research & Presentations 15%**
**Final Exam 20%**

**The final exam is comprehensive and will include problems from the chapters we have covered in class.**

**90 – 100 = A** **80 – 89 = B** **70 – 79 = C** **60 – 69 = D** **0 – 59 = F**

**Supplies Needed for daily work:** TI-83/84 Calculator supplied by UA Rich Mountain as needed, 3-ring notebook, college rule 3-hole paper, graph paper, cardboard folder, mechanical pencils with extra erasers, pens, yellow highlighter, small pack colored pencils, small ruler or straight edge.

**Criteria for Credit:** Homework must be neat and complete. Each problem assigned has three parts: 1) the original problem with figures drawn where necessary. 2) all steps or an explanation of how to arrive at the correct answer, and 3) the final answer. ***Answers alone are not acceptable***. Use pencils and /or blue or black ink pens and straight edge papers. Write the lesson topic at the top of the first page. Label each page with your name and lesson number in the top right-hand corner. Work in two columns if possible. Highlight final answers with a yellow highlighter. Leave a blank line between problems. All graphs are to be accurately sketched on graph paper with all parts properly labeled and all work for the problem shown on the same page as the graph. Graphs much be drawn with a pencil unless otherwise instructed. For immediate feedback, you may check your answers for most assigned problems in the back of the book. You will not receive credit for any problems not meeting the criteria for credit described above.

**Attendance / Make-up Policy**: No make-up exams will be given. If you miss an exam, the missing grade will be replaced by the final exam score at the end of the course. Deliberately missing an exam is not advised due to the comprehensive nature of the final exam and the possibility of missing a future exam. The student is responsible for instruction missed during class by studying the material in the book, seeking help from the teacher and/or student support services, and by getting class notes from the teacher or another student.

**Cell Phones:** The use of cell phones in the classroom is prohibited. Turn cell phones off during school hours. All cell phones will be taken up during exams.

**Computer and On-Campus Resources:** Computer labs with printers are available in several places on campus including the Johnson Learning Commons. UA Rich Mountain offers students assistance with quality tutors available in the Student Support Services (SSS) and Learning

Enrichment and Counseling Center (LEAC) in the Johnson Learning Commons. You may access www.tutor.com/uarichmountain nights and weekends when SSS is not available.

**Academic Dishonesty**: Any suspicion of academic dishonesty will result in no credit for the paper in question.

**UA Rich Mountain Mission:** UA Rich Mountain provides transformative education to all learners.

**ADA Statement**: It is the policy of UA Rich Mountain to accommodate students with disabilities, pursuant to federal law, state law, and the college's commitment to equal educational opportunities. Any student with a disability who needs accommodations, (ex: seating placement, examinations, or access to information on the web), should inform the Vice President of Student Affairs at the beginning of the semester. The Vice President of Student Affairs will contact the faculty member as to the accommodations needed for the course. To contact the Vice President of Student Affairs, students seeking accommodation should go to the Tower Room, located in the Maddox Building or call the College at 479-394-7622, ext. 1400.

**Arkansas Clean Air Act**: In compliance with the Arkansas Clean Air Act, UA Rich Mountain is a smoke and tobacco free facility. Students and guests are to refrain from the use of all tobacco products while on campus.

**Student Misconduct**: Students committing misconduct are subject to disciplinary sanction(s) and/or restrictions. Misconduct or prohibited behavior includes, but is not limited to endangerment, harassment, disruption, sexual misconduct, illegal drugs and/or alcohol, fire or safety issues, gambling, property violations, computer violations or other violations as listed in the UA Rich Mountain catalog.

**Course Outline:**

Chapter 1: Angles and the Trigonometric Functions weeks 1-2 01/11-01/22

1. Angles and Degree Measure
2. Radian Measure, Arc Length, and Area
3. Angular and Linear Velocity
4. The Basic Trigonometric Functions
5. The Fundamental Identity and Reference Angles
6. Right Triangle Trigonometry

Chapter 2: Graphs of the Trigonometric Functions weeks 3-5 01/25- 02/12

1. Graphs of the sine and Cosine Functions
2. The General Sine Wave
3. Graphs of the Tangent and Cotangent Functions
4. Graphs of the Secant and Cosecant Functions
5. Combining Functions

Chapter 3: Trigonometric Identities____ weeks 6-8____ 02/15- 03/05_____

1. Basic Identities
2. Verifying Identities
3. Sum and Difference Identities for Cosine
4. Sum and Difference Identities for Sine and Tangent
5. Double-Angle and Half-Angle Identities
6. Product and Sum Identities

Chapter 4: Solving Conditional Trigonometric Equations weeks 9-10 03/08-03/19

1. The Inverse Trigonometric Functions
2. Basic Sine, Cosine, and Tangent Equations
3. Multiple Angle Equations
4. Trigonometric Equations of the Quadratic Type

Chapter 5: Applications of Trigonometry weeks 11-12 03/29-04/09

1. The Law of Sines
2. The Law of Cosines
3. Area of a Triangle
4. Vectors

Chapter 6: Polar Coordinates and Parametric Equations 13-14 04/12-04/23

1. Complex Numbers
2. Trigonometric Form of Complex Numbers
3. Powers and Roots of Complex Numbers
4. Polar Equations
5. Parametric Equations

Review and Practice Exam week 15 04/26-04/30

**Important Dates:**

| | | |
|---|---|---|
| January 11 | M | Classes begin. |
| January 22 | F | Last day to drop with a refund |
| February 15 | M | Winter Break (no classes, offices open) |
| March 1-5 | M-F | Priority Registration for Summer & Fall |
| March 8 | M | Mid-semester/first 8-week classes final grades due |
| March 22-26 | M-F | Spring holidays begin (no classes, offices open) |
| April 30 | F | Classes end/Last day to drop a class with a W |
| May 3-6 | M-R | Final exams |
| May 6 | R | Grades due |

**Course Conduct:** The class will be taught using a combination of lecture, group interaction, question and answer approach, and independent study. New topics will be demonstrated using the board, overhead document projector, and TI 84+ Smartview computer program for support of graphing calculator use. Students are strongly encouraged to discuss concepts and examples as opportunities are presented during instructor presentation. It is the student's responsibility to inform the instructor when a concept is confusing or otherwise unclear.
