BPhilpot MTH213-ME1 Sp22

Any additional comments about the course or instruction?

Sometimes Mrs. Philpot doesn't give examples of all the types of problems in a lesson, and if you ask for help she'll get frustrated and use a frustrated tone with me. It really offends me.

The teacher gives unclear instruction and makes a student feel unintelligent for asking an important question.

Instructor was well intentioned but ineffective as a teacher
