KCarpenter HIS153-02

Any additional comments about the course or instruction?

Maybe put on some videos from content creators such as "Oversimplified" or "Extra Credit". You can find them on Youtube

This was my favorite class this semester! I always looked forward to coming because I knew it would be fun and interactive.

Dr. Carpenter is the best teacher I've ever had. He enjoys teaching and wants kids to be the best they can be. He made the course very organized and effective.

Got very helpful studies from this class!

Great enthusiasm, High level critical thinking, somewhat fast-paced. Exceptional teacher — may benefit from some reduction in pace. Some students may miss connections if topics change quickly. Great work!

Kyle Carpenter is a very good educator and I learned a lot in this class and it was also not a boring class so that was very helpful. Would recommend this class to other students!

Taking Mr. Carpenter's class in house is more informative then online.
May need to explain the thesis steps in more detail like he does in class

Entire class was great keep up the good work!

Nah bro you're chill.
