GGyanwali GEOS1133-01 SP22

Any additional comments about the course or instruction?

The instructor was very good, but when he got excited he talked too fast, and withe his accent it was at times hard to understand.

Can mange time better. tech another way instead off power points.

Wouldn't have hated a bit more info sometimes. Doctor G is too smart for my small brain.

Dr. G is fantastic at accomodating for all students.
