## Access and Check Out

JLC has access to print books and electronic books. To check out a print copy, students must present their current student ID at the Circulation Desk. If the book is not available at JLC, students can request to borrow it from another library through Interlibrary Loan. E-books can be downloaded or read online.

## Databases

JLC has databases that students can access. These include peer reviewed, scholarly papers to be used as references for research and papers.

## Copying and Printing

For currently enrolled UA Rich Mountain students, the account is charged each time a student prints. All other patrons are charged according to the type of printing. A copy machine is available for students and patrons to use.

## Study Rooms

JLC has rooms for groups or individuals to reserve for a quiet place to study.

# Johnson Learning Commons

## Computers

JLC has desktop computers and laptops for use while in the library. Each computer and laptop has MS Word, PowerPoint, Excel, and other MS programs. JLC also has Chromebooks which work really well for collaborative work using Google Docs.

## Formatting and Documentation

Library staff are here to show you the quickest and easiest way to create a works cited, bibliography, or reference page for your class papers. Also, learn ALA, MLA, and Chicago style documentation using one of the online sources.

## Tutoring

Tutoring services are available through JLC. SSS offers tutoring services free of charge to UA Rich Mountain students. Additionally, JLC has two online tutoring services that currently enrolled students can access at any time.
