MGates ENG123-04 Sp22

Any additional comments about the course or instruction?

Great teacher, Great class!

Sometimes racist readings

Mrs. Gates is the absolute best instructor.

This course was the most well explained and organized course out of all of my courses this semester! It was also pretty challenging at times.

Blackboard is very shattered and hard to find things also way to many things going on at once.

We read a lot of stories that had racism in them. She didn't want students to use "African American" if the story used a different term.
