"The Associate of Applied Science Degree is designed for employment purposes, and it should not be assumed that the degree or the courses in the degree can be transferred to another institution. While a few institutions have recently begun to accept some courses in A.A.S. programs, the general rule is that courses in the A.A.S. Degrees are not accepted in transfer toward bachelor's degrees. Students for whom transfer is important should get assurance in writing in advance and only from the institution to which they wish to transfer."

*Students may also check the **Arkansas Course Transfer System** for the transferability of classes.*
