Assessing Student Learning
Course Outcomes Report
Robby Burt
Spring 2022

1. **Purpose**
The Course Outcomes Report supplies information each semester regarding student learning on the course level. This report must be submitted to your division chair by the last day of the semester. Data from this report will be integrated into the annual Program Review. The Strategic Goals aligned with this report are Strategic Goal Three: Provide High Quality Education and Strategic Goal Four: Continuous Quality Improvement.

2. **Course Details**
Course Name: Music Appreciation Course #: MUS 203

3. **Assessed Outcome**
Course Outcome: Identify, by listening, a wide variety of musical styles as studied in class.

Related Program Outcome: Understanding of different cultures and societies across the globe and how both have changed over time

Related GELO category (choose one):
- ☒ Thinking critically
- ☐ Communicating effectively
- ☐ Using technology
- ☐ Conducting relevant research

4. **Evidence of Student Learning**
Describe the classroom activity/tools related to the **course** objective (project, discussion, essay, quiz, etc.): Students took a pretest for test 2 over the Baroque and Classic Period. The average grade for 16 out of 16 students was 34%. There were 50 questions on the test, this test involved questions from the text as well as listening and identifying composers and compositions. 11 students took test 3 on March 8 with the average score of 83%, this is a 49% raise in the average. There were two students away for athletics, one without transportation, one that will drop the course, and one student that was taken to the ER during class time, otherwise, all the original 16 would have completed the test in time for this assessment.

5. **Course Data**
Number of students in your course(s) who met the course objective: 10 of the 11 in class on March 8th passed the test. One did not pass the test and other students will be making up the test.

Total number of students in your course section(s): 16

Percent (%) of students achieving this course objective: 10/11 or 90% of the students in class on March 8th passed. 10/16 passed overall or 62.5%.

6. Response to Data

Will you change how you teach as a result of this assessment?

☒Change(s) needed. Need to improve the retention of the students will lower scores and students that should have dropped for non-attendance.

☐No change(s) needed. *Type explanation here.*

***Attach <u>anonymous</u> student samples of each activity along with the grading rubric/scale.**
****Attach any meeting minutes associated with this assessment.**
