BPhilpot MTH203-ME1

Any additional comments about the course or instruction?

The course is diffucult and challenging. There is too much worth for a proper understanding, which leaves all student stressed and unprepared. She is a sweet lady, but extremely diffucult teacher.

Homework grading was inconsistent. Study guides were occasionally misworitten and answers on the study guides answer key were wrong. Test questions had questions written incorrectly. Tests were inconsistently graded.

Very passionate about math + puts in an extreme amount of time for the students.
