4. Evidence of Student Learning

Describe the classroom activity/tools related to **course** objective (What did they do for the class which was tied to this objective? Was it a project? Discussion? Quiz?)

Describe Activity: Students wrote increasing complex texts beginning with one paragraph and culminating with a five paragraph argumentative essay containing information from outside sources. The improvement in student performance and material presented demonstrated growth in ways the pre- and posttest were unable to measure.

5. Reflection

A. What was the result of this activity? (How do you know that students satisfied the course objective being measured?)

At the beginning of the semester, 15 students completed the quiz with an average score of 70.33%, There were only 7 students who score above a 70% on the pretest. At the end of the semester, 19 students took the quiz with an average score of 93.36%. All 19 students who scored above a 70% on the posttest.

6. Enter course data

Number of students in your course(s) who met course objectives: 18

Enter the number of students total in your course section(s): 19

Enter the percent (%) of students achieving this course objective. (Data will be used on Program Outcomes Report under Evidence of Student Learning.) 95%

7. Response to data: Will you change how you teach as a result of this assessment?

Choose only one of the narration options below. If curricular changes are needed, briefly explain any changes planned for course improvement. If no changes are needed, indicate the rationale in the space provided below.
