Attendance and Make-Up Policy:
The worst thing a student can do is stop participating in the class without telling the instructor. Being this is an online class, the students will be responsible for doing their work and using their time management skills. Communication with the instructor from the student is key!

Above is the semester calendar. If you have to miss any assignments, you will know what assignments should be due. These assignments must be completed and submitted to me no later than the following week to receive credit. Making up assignments is the student's responsibility, not the instructors. Your attendance will be monitored based on the work you do and you will be penalized for not logging in. Isolation or quarantine is not a valid reason for not logging in.

Plagiarism/Cheating
Plagiarism will not be tolerated in this class. The work from previous semesters is kept and reviewed if it is felt that the assignment was duplicated. If I have reason to believe that you and a classmate submitted the same work then I will give you both zeros.
