Ride along Waldron City police
03/09/2024

Procedures for handling drugs are wear gloves, get consent to search or get a valid reason to search. give the suspect a chance to confess what the drugs are for and what it is. Any evidence they have they package and seal with evidence tape, that is different from regular tape it is easier to rip and break so once something is packaged and sealed with the tape it can't be tampered with.

Community policing initiatives are They go to the schools and read to kids and help with fishing Derdies, and attend sport events. The also participate in paraids.

The use of force policies are use of force nesassary while making arrest, but is last resort try to dal m things down so it does not get to that point, Something I have been told on all of my ride alongs is always watch how people act.
